

1. Product and Company Identification

Identity (as used on label & list): **A.T. Concentrate All-Purpose Cleaner**
 Product Description: Water Soluble Surfactants and Water
 Intended Use: Hard Surface Cleaner

Baum's Castorine Co., Inc. Telephone Number: (315) 336-8154
200 Matthew Street Preparer: Paul Berger
Rome, N.Y. 13440 Date Prepared: May 2, 2015

2. Hazards Identification**Hazardous Classification:**

Pictogram: None

Signal word: Warning

Hazard Statement: Causes Eye and Skin Irritation

Under conditions of intended use this product is not considered hazardous and does not pose a risk to health.

Overview; Ingredients not listed as a carcinogen by IARC, NTP, or OSHA

DOT Hazard Class: Not Applicable

Threshold Value Limit (TLV): Not Determined

HMIS	
H	1
F	0
R	0
PPE†	
† Sec.8	

Signs and Symptoms of Exposure:

Eyes Will cause irritation and inflammation characterized by redness, watering, and itching; depending on length of exposure, solution concentration and first aid measures provided.

Skin Causes skin irritation characterized by reddening. Prolonged contact with product may cause discomfort, no adverse effects expected from absorption of material through skin.

Ingestion Not expected to be a primary route of exposure, will produce gastrointestinal discomfort.

Inhalation Not expected to be a primary route of exposure, vapors or mists in unusually high concentration, in poorly ventilated areas may cause irritation of nose and throat characterized by coughing.

3. Composition/ Information on Ingredients

Component	CAS-No.	%Wt.
Mixture of water soluble surfactants	Proprietary	< 20
Potassium Hydroxide	1310-58-3	<0.2
Diethanolamine	111-42-2	1.8
Water		Balance

4. First Aid Measures

Inhalation: Remove to fresh air. If irritation persists, seek medical attention. If breathing has stopped, assist ventilation with a mechanical device or use rescue breathing with a pocket mask.

Skin: Wash skin with water.

Eyes: Flush with water for 15 minutes. If eye irritation persists, seek medical attention.

Ingestion: If swallowed, get immediate medical attention or advice. If victim is conscious and able to swallow, give large amounts of water. Do not give anything by mouth to the person who is unconscious or convulsing. Do not induce vomiting unless directed by a physician.

5. Fire Fighting Measures

Flash Point	Not Applicable
Auto Ignition Temperature:	Not Applicable
Flammable Limits	Not Applicable
Classification	Not Flammable
Extinguishing Media	Not Applicable

Special Fire Fighting Procedures: NFPA Code: Health 1, Fire 0, Reactivity 0
Use water spray to cool fire-exposed surfaces to prevent over-pressure of containers and to protect personnel. Use air-supplied breathing equipment for enclosed areas.

6. Accidental Release Measures

Containment Procedures Stop flow of material if without risk. Dike spill with inert absorbent. Block any potential routes to water systems, sewers, streams, lakes, etc.

Clean-Up Procedures Wear appropriate protective equipment and clothing. Absorb with inert absorbent, shovel material into appropriate container for disposal.

Evacuation Procedures Keep unnecessary personnel away.

7. Handling and Storage

Handling Procedures Avoid contact with skin and eyes. Observe good industrial hygiene practices and wash thoroughly after handling.

Technical Measures Work practices should minimize contact.

Technical Precautions Local exhaust is normally not required unless the process produces a mist.

Storage Procedures Store in tightly closed original container, in well ventilated place, away from strong acids and oxidizing agents. Prevent from freezing. If frozen, move to warm area.

8. Exposure Controls/ Personal Protection

Ventilation Engineering Controls: Ventilation should effectively remove and prevent any buildup of any vapor or mist generated from the use of this product

Personal Protection Equipment (PPE)

Respiratory Protection: If ventilation is not sufficient to effectively prevent buildup of aerosols or vapors, appropriate NIOSH/MSHA rated respiratory protection must be provided.

Skin Protection: Use Impervious gloves. Use of impervious apron and boots are recommended

Eye/Face Protection: Wear safety glasses, chemical goggles or a full face shield.

Other Protective Clothing / Equipment: None.

9. Physical and Chemical Properties

Physical State	Liquid
Appearance and Color	Viscous green
Boiling Point (° F) approximately	212° F
Odor	Mild Amine
Vapor Pressure (mmHg)	equivalent to water
Vapor Density (air=1) less than	equivalent to water

Percent, Volatile by Volume (%) as water	88
Solubility in Water	Complete
Specific Gravity (H ₂ O=1) approximately	1.049
Burning Properties	Oxides of carbon, nitrogen and phosphorus may be produced after all moisture is boiled off.
Flammability	Not Flammable
Explosive Properties	Not Explosive
Flashpoint	Not applicable
Auto-ignition temperature	Not applicable
Decomposition temperature	Not applicable
pH of Product	10.5
pH 5% in water	10.3
Evaporation Rate (water=1)	< 1
Viscosity	Equal to water.

10. Stability and Reactivity

Chemical Stability:	This is a chemically stable material.
Conditions to Avoid:	Heat from fire sufficient to overpressure container.
Materials to Avoid:	Strong acids and oxidizers
Hazardous Decomposition or Byproducts:	Material will not decompose in use or storage. Oxides of carbon, nitrogen and phosphorus may be produced after all moisture is boiled off in a fire.
Hazardous Polymerization	Will not occur.

11. Toxicological Information

Eyes	Will cause irritation and conjunctivitis depending on length of exposure, solution concentration and first aid measures provided.		
Skin	Prolonged contact with product may cause discomfort, no adverse effects expected from absorption of material through skin		
Ingestion	Not expected to be a primary route of exposure		
Inhalation	Vapors or mists in unusually high concentration, in poorly ventilated areas may cause irritation of nose and throat.		
Carcinogenicity:	NTP: No	IARC Monographs: No	OSHA Regulated: No

12. Ecological Information

The product is not expected to be hazardous to the environment.

Mobility: This product is soluble in water and will spread in water systems

Degradability: The rate of degradation has not been determined. Lubricant components are inherently biodegradable.

13. Disposal Considerations

Waste Material Disposal of in accordance with Local, State and Provincial Environmental Regulations.

Treat container as residue.

14. Transport Information

Not Regulated

15. Regulatory Information

<i>DOT Hazard Class:</i>	Not regulated
<i>EPA Hazardous Substances:</i>	None
<i>SARA 311/312 Hazards:</i>	Immediate (Acute) Health Hazard
<i>California Proposition 65:</i>	This product does not contain any chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.
<i>Governmental Inventory Status:</i>	All components comply with TSCA, DSL, AICS, NZIoC, ENCS, KECI, PICCS and IECSC.

16. OTHER INFORMATION

US NFPA Codes	Health	Fire	Reactivity
